Ryan, Heidi, attached is the one-pager for tomorrow's RFS principals call. The document includes the four options that developed from our stakeholder discussions. We understand that staff at EPA and USDA have reviewed this document. Ray and I made a few tweaks to clarify the substance (specifically, for options 2 and 3). Please deliver this to your respective principal. And we ask that you keep an extremely close hold on this—restrict it to those who absolutely need to see it. Thanks, and holler at us if you have questions or concerns before tomorrow's call.
